Our fear of bees begins when we are very small - that little tiny bee can be very intimidating. Let's face it we all fear what we do not understand. Unfortunately as we age, we never really seem to take the time to obtain that understanding - so our fear remains in tact.

This book was written to teach boys and girls a little about bees and how to handle a bee encounter. With a little bit of understanding we can remove the chances of a stinging encounter and eliminate a lifetime of fear. With bees, a little understanding goes a long way. Each reader will receive complimentary coloring pages to use and share.
