Most mature men are able to masturbate, and many men do this periodically. However, there are countless ways to obtain sexual pleasure. In most cases, this is the result of stimulating one's genitals mechanically, for example by hands. This means that many techniques involve direct physical contact until an orgasm occurs. However, it is considered as the "high art" to reach this point neither with hands involved nor by getting mechanically stimulated otherwise. This book describes a possible way to experience an orgasm autonomously after a long-lasting period of highest delight and completely without any mechanical stimulation.
