Anglo-Saxon England: Volume 20

This book illustrates some of the exciting paths of enquiry being explored in many different fields of Anglo-Saxon studies - archaeology, legal history, palaeography, Old English syntax and poetic, Latin learning with its many reflexes in Old English prose literature, and others. In all these fields it is clear that fresh perspectives may be achieved by examining even well-known objects and texts in the light of modern approaches and scholarship. Several studies concentrate on aspects of early Anglo-Saxon civilization: the settlement at Mucking, Essex; the iconography of the famous gold coin struck in the name of Bishop Liudhard; the early Anglo-Saxon law on adultery; and a reconstruction of an early Anglo-Saxon copy of the Heptateuch. The usual comprehensive bibliography of the previous year's publications in all branches of Anglo-Saxon studies rounds off the book, with a five-year index to volumes 16-20 (previous indexes being in volumes 5, 10 and 15).
