Blue Black Sea: New Dimensions of History, Security, Strategy, Energy and Economy Giray Saynur Bozkurt

The book presents the opinions of experts and researchers from the Black Sea states with respect to history, security, politics, strategy, energy, and economy, in the region, and explains various dimensions of the present international relations and problem areas from both theoretical and conceptual perspectives. Offering the reader a comprehensive approach that covers a wide range of affairs, it is hoped that this book will fill an important gap in international relations studies. While the added word "Blue" in the title indicates our shared aspirations for a clean and peaceful future, overall this book is intended to provide valuable academic assessments and share them with the wider world community, thus disseminating findings about the regional and global policies being pursued in the Black Sea region today.
