Body Heat Devyn Morgan

With ingenuity and luck, a wilderness mishap turns into a romantic adventure where love has room to bloom!

Though he lives as an openly gay man in DC, Nick decides to revert to his closeted alter ego when he returns home to Colorado. Someday he'd come out to his family – in six months, maybe. Or six years. Now he steels himself to survive a back-country camping and hunting trip with his brother and friends. But Nick forgets he isn't out East anymore when he kisses his hot skiing instructor just as his brother arrives! If the awkward silence on the drive up is bad, the constant stream of gay jokes by his brother's friends is even worse.

Clay likes his skiing student a lot – enough to exchange phone numbers despite his sulking brother and the pile of hunting gear in the back of their truck. Nick is smart and funny and incredibly cute. Clay texts to invite him to dinner, only to find Nick is still out on the mountain and at the mercy of the elements. When a winter storm threatens, Clay resolves to rescue Nick personally. He thinks Nick is “the one” – but only if their new relationship survives the close quarters of a cozy snow cave.

BODY HEAT is a contemporary gay romance with a happy ending.

From reader reviews:

Sandra Gregory:

Here thing why this Body Heat are different and dependable to be yours. First of all reading a book is good but it really depends in the content of the usb ports which is the content is as delightful as food or not. Body Heat giving you information deeper as different ways, you can find any guide out there but there is no e-book that similar with Body Heat. It gives you thrill examining journey, its open up your current eyes about the thing in which happened in the world which is probably can be happened around you. It is possible to bring everywhere like in playground, café, or even in your approach home by train. For anyone who is having difficulties in bringing the published book maybe the form of Body Heat in e-book can be your substitute.

Robert Music:

Reading a guide can be one of a lot of activity that everyone in the world loves. Do you like reading book and so. There are a lot of reasons why people love it. First reading a publication will give you a lot of new facts. When you read a reserve you will get new information mainly because book is one of numerous ways to share the information or their idea. Second, looking at a book will make anyone more imaginative. When you examining a book especially hype book the author will bring you to imagine the story how the people do it anything. Third, you may share your knowledge to some others. When you read this Body Heat, you can tells your family, friends in addition to soon about yours guide. Your knowledge can inspire different ones, make them reading a publication.

Harry Branham:

What is your hobby? Have you heard in which question when you got scholars? We believe that that concern was given by teacher for their students. Many kinds of hobby, Everyone has different hobby. So you know that little person similar to reading or as looking at become their hobby. You need to understand that reading is very important in addition to book as to be the issue. Book is important thing to increase you knowledge, except your personal teacher or lecturer. You get good news or update concerning something by book. A substantial number of sorts of books that can you choose to use be your object. One of them is Body Heat.

Jean Proffitt:

Reading a book make you to get more knowledge as a result. You can take knowledge and information coming from a book. Book is created or printed or illustrated from each source that will filled update of news. Within this modern era like today, many ways to get information are available for a person. From media social including newspaper, magazines, science e-book, encyclopedia, reference book, novel and comic. You can add your understanding by that book. Are you hip to spend your spare time to spread out your book? Or just seeking the Body Heat when you required it?
