Austerity Britain, 1945-1951 David Kynaston

A majestic people's history of England in the years immediately following the end of World War II, and a surprise bestseller in the UK.

As much as any country, England bore the brunt of Germany's aggression in World War II, and was ravaged in many ways at the war's end. Celebrated historian David Kynaston has written an utterly original, compellingly readable account of the following six years, during which the country indomitably rebuilt itself.

Kynaston's great genius is to chronicle England's experience from bottom to top: coursing through the book, therefore, is an astonishing variety of ordinary, contemporary voices, eloquently and passionately displaying the country's remarkable spirit even as they were unaware of what the future would hold. Together they present a fascinating portrait of the English people at a climactic point in history, and Kynaston skillfully links their stories to the bigger, headline-making events of the time. Their stories also jostle alongside those of more well-known figures like celebrated journalist-to-be Jon Arlott (making his first radio broadcast), actress Glenda Jackson, and writer Doris Lessing, newly arrived from Africa and struck by the leveling poverty of postwar Britain. *Austerity Britain* gives new meaning to the hardship and heroism experienced by England in the face of Germany's assaults.
