Cheney's War Crimes: The Reign of a De Facto President Holcomb B. Noble

In an important sense, Holcomb Noble spent most of his career at The New York Times preparing for this project, the first ten years as an acquisitions editor and rewrite person at the Sunday magazine. After stints as a science-section editor, metropolitan news editor, and business editor, he was made an investigations editor, during which he led two teams in year-long investigations that won back-to-back Pulitzer Prizes—one proving that the Star Wars anti-missile shield would not work, saving the nation an estimated cost of more than a trillion dollars, and the second uncovering corruption in the space industry, which directly accounted for the crash of the space shuttle Challenger and death of seven astronauts. His journalism career began as a reporter for the Worcester Telegram in Massachusetts after graduation from Amherst College. He joined the Associated Press in 1960 and went on to become day supervising editor of the AP's general news report. Part of his responsibilities included directing coverage of the moon missions of Apollo 12, 13, and 14 from the AP bureau at the space center in Houston. Cheney's War Crimes brings together for the first time the many strands of the Shakespearean tragedy that is the story of Dick Cheney. It gives an insider's account of his extraordinary seizure of power in becoming the de facto president; makes shocking disclosures about the chaos and confusion in response to the 9/11 attacks; and tells step by step how Cheney led the nation into two destructive wars in the Middle East.
