The Fifth Moon's Wolf (The Fifth Moon's Tales) Monica La Porta

Humanity left Earth several hundreds of years ago. Shifters were among the first to board the space stations escaping from the dying planet. During the long voyage in deep space, mutations changed the paranormal passengers altering their lives forever. As a result, shifters lost their ability to reproduce and enrolled geneticists to ensure their survival.

Valentine Lobo is the last werewolf left in all the Coral System. The undisputed leader of planet Lupine, he has been waiting for his genetically engineered bride for centuries. He has no time to court Mirella Canalis, the young woman whom he only sees as a means to an end. After all, her only reason to exist is to give the alpha werewolf an heir.

Valentine is arrogant and domineering. He must save House Lobo from oblivion. What will happen when he finally meets sweet and naïve Mirella on his wedding night?

A dash of space opera and plenty of steamy paranormal romance.
