## **The Story of Bioethics: From Seminal Works to Contemporary Explorations**

This literally "refreshing" collection is based on the notion that the future of bioethics is inseparable from its past. Seminal works provide a unique and relatively unexplored vehicle for investigating not only where bioethics began, but where it may be going as well. In this volume, a number of the pioneers in bioethics—Tom Beauchamp, Lisa Sowle Cahill, James Childress, Charles E. Curran, Patricia King, H. Tristram Engelhardt, William F. May, Edmund D. Pellegrino, Warren Reich, Robert Veatch and LeRoy Walters—reflect on their early work and how they fit into the past and future of bioethics. Coming from many disciplines, generations, and perspectives, these trailblazing authors provide a broad overview of the history and current state of the field. Invaluable to anyone with a serious interest in the development and future of bioethics, at a time when new paths into medical questions are made almost daily, *The Story of Bioethics* is a Baedeker beyond compare.
