In this book, you find 25 of the most influential hot rods of all time. Most of these cars are recognized immediately by name: The Niekamp roadster, Isky's T, the Pierson Brothers coupe. You know these cars and you've seen them before, but never like this.

Every pastime has its greats, and hot rodding is no exception. Once in a while a hot rodder puts together a car that's so right and so well done, it becomes an instant icon in the rodding world. These cars represent a clear vision, usually from one talented person, and they set the standard for others to follow. They've been imitated, coveted, and revered, and today many of them have been painstakingly restored for private collections or museum display. Ken Gross dug deep into each car's past, interviewing original builders, later owners, restorers, and others who helped shape these cars. His text covers each car's history, technical background, and the influence they have today, often bringing to light new information. Robert Genat trained his lens on this select group of cars to capture the proportions, the details, and the essence of what they are. Combine those elements with vintage photos of these cars from "back in the day," and you have a comprehensive history of hot rodding's heavy hitters--the cars that define what a hot rod should be.
