The post-apocalyptic series readers are describing as "The Walking Dead at sea."

This omnibus edition contains books 1-5 in the best-selling Blood Memory series, and is nearly 600 pages of horror, action, thrills and spills.

Haven's crew discovers a body floating at sea. With a six-year hole in his memory, Jordan remembers nothing of the Incident or the creatures that have claimed the land as their own. He joins the crew in their daily struggle to survive in a harsh new world where every meal is live or die.

Episode One

But when a shipwreck forces them from the safety of the sea, the crew soon discover zombies aren't the only monsters out to get them, and the means to their salvation might be closer to hand than they think.

Episode Two

The survivors of the shipwreck coalesce on the land, but one of their number is missing. They wait for three days, with disastrous consequences.

Episode Three

The survivors head onto the land to get the supplies they need for their long journey ahead, and meet a patrol of soldiers from the nearby Burgh Castle compound. Almost back to the safety of their boat, the survivors are set upon by an endless horde of Lurchers.

Episode Four

The survivors race across the countryside, the Lurchers hot on their heels. They come across a farmer with a haunted past who knows a lot more than he seems. He explains to them the very nature of blood memory and why it has ravaged the earth.

Episode Five

Jordan finally discovers the secret hidden in his past, the secret that could either doom the Burgh Castle compound, or prove its salvation.
