google 1649'ish or weltfrieden is possible within 20 minutes check the latest summary at <http://checkthis.com/thebook> [[if not hacked again with gif-spam]] ("...the first 1,600 years did not exist...") "google 1649'ish" - the book <http://justpaste.it/thebook> <http://checkthis.com/whrv/> May 1st, 2013 Why does german "Mönch"|monk and "Mensch"|(human being) sound almost exactly the same ? Why did the "bishop" appear 'so late' in the chess game ? Did church-, war-, beer- and mining language originate at the *very same spot(s) ? Bischofshof (Regensburg) and "the Free Royal Town of Lezajsk" (//1656.0, //1652.5) ? Why did noone ever wonder why menagerie, zoo, circus, theatre, outdoor paintings, police, "the monster", Pferdeomnibus, botany and life guards/"Cuirassiers" etc. started (so late) "too late" ? Or the russian army ? (Pishalshi, Strelizen... //1650s) Or their Baltic Fleet (1696 !) ? Why did "Music of the Turks" start in //1663.0 ? " ...there wasn't any ventile for a music instrument until german Heinrich Stölzel (1777 - 1844), therefore "ancient roman tuba players" is a bold lie... " Sanskrit", "Hebraic" etc. are artificial languages [better : textsprachen] and *!not old!, "...based on the very first movable type ; //1650.1, patented in //1649.8. This was allegedly "improved" by "Pierre Attaignant", possibly around //1652.8..." Google 1649'ish has the ultimate mini-summary on every artificially created religion incl. "Orientalistik"/Islam and why the Koran was written in the 1650s by germans; hiding and 'silenced' behind some 'artificial personality', ironically called "Salomon Schweigger". Google 1649'ish *has the answers, without being blasphemic, choleric or atheistic *at all ! "...at the end you will look 'blass', 'wie kohle' oder 'wie 'n' getuerkter atta-tuerk der sprachverfaelscher....^" ... //1663.0 [o:"16|30"] cube Kaaba, [masked as] [re]construction is finished ... Flashback : 1649'ish - //1650s temporary used by humans : stone circles, sundials/"shadow clocks" ["Giuseppe Biancani" //1656.6 – //1662.4], a merkheth with a plumb line [*then 'ancientized'], water clocks, candle clock, hourglasses, incense clock ('orientalization of clocks'). The first professional clockmakers came from the earliest guilds of locksmiths and jewellers. //1650s Mainspring (a spiral torsion spring of metal ribbon that is the power source for the first mechanical watches) incl. the Burgunderuhr (Burgundy Clock) ... 1650 First Pendulum clocks. Was there a secretive "clavicordium" and "clavicymbolum", the precussor of the piano ? (Human) zeit|Time and clocks|u(h)r is as old as the 1650s and more close to //1649'ish. Try to ridicule the content of the "lost encyclopedia" plus lexicon on 'century|fakery' ; as a so called "book"|Buch it ignores the author and writer anyway, who wrote *this : "...Language is at a dead end|Sprache (2013) ist in einer Sackgasse..." ...meanwhile the majority of world news still follows some simple principle : lies, "CGI", actors, ("ketchup") and completely made up. But how was it 450 years ago ? Exactly the same : lies, 'falseflagpainters', 'falseflagpaintings' ("red") plus manipulated "camera obscura" and fabricated wars on the first "conferences" [minus hidden genocide] and "news" mostly completely made up, *here reconverted into the //1650s, when every human worldwide started to breath, apprx. 48 d i g i t s away from potential year 1 on earth. Or was it 1649'ish right away anyway ?
