Environmental Management Systems: How to boost organizational environmental performance Dr Trevor J Price PhD.

No matter how big or what your business does, this book will show you how you can install and maintain an environmental management system that is ISO 14000 compliant, thus enabling you to avoid operating illegally, reduce your organization's environmental footprint and save money. This book is aimed at you if you are an Environmental Manager who has recently been appointed and feel a little out of your depth or perhaps you're a student studying the subject and craving for more knowledge and better understanding? May be you're an experienced employee already working in this important area of business or you're just curious about how the organization you work for can cut its environmental footprint? Whichever you are, this book gives you all that you need to be able to fully understand what Environmental Management Systems are, what they do and how to build and operate them. By using this book you will quickly and easily understand how an Environmental Management System can help you reduce the environmental impacts of your business, reduce costs and so enhance and boost your and your organization's eco-credentials. Furthermore, in this book are loads of templates that you can easily and quickly customize for your own needs and use within your organization. This will take away all the tedious hassle of starting from scratch developing an Environmental Management System from nothing, providing you with a quick route to your own bespoke EMS that's right for your unique business context. Written by an experienced Environmental Management System designer, developer, auditor, University lecturer and consultant, this book is written in an easy-to-follow way, using a simplified but not patronizing style that is really easy and quick to grasp.

Frank Godwin:

As a college student exactly feel bored to reading. If their teacher asked them to go to the library in order to make summary for some guide, they are complained. Just very little students that has reading's internal or real their hobby. They just do what the teacher want, like asked to go to the library. They go to generally there but nothing reading very seriously. Any students feel that examining is not important, boring along with can't see colorful photos on there. Yeah, it is to get complicated. Book is very important for yourself. As we know that on this time, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. Therefore this Environmental Management Systems: How to boost organizational environmental performance can make you really feel more interested to read.
