Oliver Goldsmith

As the present compiler starts with such humble competitors, it will scarcely be thought vanity in him if he boasts himself their superior. Of the many abridgements of our own history hitherto published, none seems possessed of any share of merit or reputation; some have been written in dialogue, or merely in the stiffness of an index, and some to answer the purposes of a party. A very small share of taste, therefore, was sufficient to keep the compiler from the defects of the one, and a very small share of philosophy from the misrepresentations of the other.

This is an edition of a classical book first published in the eighteenth century.
