End of Days Dennis Danvers

Seventy years earlier, religious zealots believed they destroyed the Bin--a technological Eden into which most of the world's population had uploaded their personalities to live forever in virtual bliss. Now one of the faithful--a young Christian Soldier named Same who has begun to doubt the "good works" of his messianic leader, Gabriel--has unearthed a prototype of the Bin which houses the personality of Walter Tillman, one of the system's creators. By freeing Tillman, Sam and a beautiful renegade Construct named Laura place themselves in dire jeopardy, and make a second, even more astonishing, discovery: The Bin and its billions of disembodied inhabitants still exist--including Tillman's long-lost love Stephanie Sanders. But when Gabriel, also, learns of the Bin's survival, Earth and virtual Heaven move toward a violent collision, as the destinies of Sam, Laura, Tillman, and Stephanie converge as well, with unforeseen and worlds-shattering consequences.
