**Nothing I See Means Anything: Quantum Questions, Quantum Answers** David Parrish

This book, full of lucid, penetrating insights into consciousness, definitively closes the gap between mind, matter, and cosmic intelligence. Parrish elegantly identifies the pathways to highest consciousness—a place we all are but don't know it.

Starting with a layman's examination of Freud's psychology, the author moves seamlessly through existentialism, cognitive systems, quantum physics, and mysticism to arrive at his unique synthesis of them all.

As a student, I exactly feel bored to help reading. If their teacher inquired them to go to the library as well as to make a summary for some publication, they are complained. Just very little students that have reading's internal or real interest. They just do what the professor wants, like asked to go to the library. They go to the library now, but nothing is read significantly. Any student feels that reading is not important, boring in addition to can't see colorful pictures on there. Yeah, it is to get complicated. Books are very important for yourself. As we know that on this era, many ways to get whatever we wish. Likewise, word says, ways to reach Chinese's country.
