Set your clocks for doomsday as this collection of gripping dystopian thrillers takes you into a world where human survival hangs in balance. Present-day America has reached its breaking-point. Collapse is right around the corner, but that isn't the only thing: The aftermath of an electromagnetic pulse (EMP) reduces the nation to chaos. An Ebola outbreak infects millions after a highly mutated super-gene is unleashed into the population. A calculated ISIS Sleeper Cell takes residence in a normal neighborhood street, preparing for heinous acts of terror. And there is no end to any of it. Hope comes to those who can adapt and survive. Death comes to all others. Which side will you be on? Check out Hayden's ultimate collection today and enter a dangerous, exciting world where you can always tell yourself... it's only a story.

Sleeper Cell

When a wide network of sleeper cells are activated, America faces a new terror threat unlike anything it's ever witnessed. At the height of the attacks, one FBI Agent finds himself in the middle of a race against time with an enemy hell-bent on his nation's destruction

Grid Down

A small, northeastern town is crippled after a mysterious electromagnetic pulse causes a massive blackout, leaving residents stunned and unprepared. But the loss of power is only the beginning.

American Epidemic

It's been a week since deadly Ebola outbreak spread across several cities in the US. The advanced mega-strain of the disease has since infected thousands and counting, and officials are scrambling to respond an unprecedented national crisis. Federal, state, and local governments soon convene to set-up mass quarantine zones and travel bans to infected areas in a desperate attempt to keep the virus from spreading. Their efforts prove successful in containing the disease, but soon leave residents of infected areas isolated and at the mercy of famine, disease, and death.

The Decay

A nearby nuclear attack rocks a small town in Pennsylvania, sending one man and his step-daughter on a perilous journey of survival. It was a normal Friday afternoon shattered after an unexpected terrorist attack on the New York Stock Exchange. While the country focuses on the shocking aftermath of the Wall Street bombing, they lose communications—cell phones, Internet—and electricity, as a result of the nation's downed power grids.

The Pulse

September 21, 2020: America is worse off than it has ever been economically, but the worst is yet to come. On a seemingly normal Monday morning, a power outage occurs across the entire state of Georgia. A massive breakdown of vehicles and communications follows, sending towns and cities into chaos. The sweeping blackout is unlike anything ever seen, but that's not all. Without access to news, there is no information on the mysterious phenomenon. Rumors of a looming war spreads, creating further panic. Only one weapon could be capable of such stealth destruction: an electromagnetic pulse (EMP), and on that Monday, the nightmarish cold war scenario becomes a chilling reality
