In editing this volume I have endeavoured to select such specimens of Irish Folklore as may enable the reader to arrive at a correct judgment of the general features of Irish Folk-tales. Although the primary elements of the Folk-tales are often so similar in various countries, yet each people has its method of developing the fiction-germ in its own characteristic manner. The fertile imagination of the Irish has not neglected the primitive tales of the people, and it has moulded them into narratives of peculiar interest.
