Medical Mayhem Mrs. Patricia Ann Frey

Nicole Patrick is a registered nurse at the Medfrey Community Hospital where she is the temporary charge nurse on a medical and surgical unit. Her personal life weighs heavy on her mind with her husband's infidelity, the recent death of her grandson and her father's debilitating Alzheimer's disease. As well as caring for the patients' difficult medical problems, Nicole and four other nurses are dealing with narcotics missing from the locked cabinet. A duo of criminals creates suspicion and emotional upheaval among the nurses and upsets the serene ambience where peacefulness and saving lives are the heart of the staff. As a child Nicole witnessed a frightening scene. The fear traumatized her to repress the incident in her subconscious. The apprehension of her home life and now with her job, she begins to experience flashbacks, tiny little snippets of a dead body, blood and her running through the woods in fear. Then a vivid dream alerts her to the culprit from her childhood, whom she now recognizes as Adam, the mechanic. He stalks her throughout the summer leading her on a journey of danger where Nicole has to fight for her existence.
