The International Marine Book of Sailing William Robinson

Here's the book that can get you sailing in an afternoon and keep you sailing better through a lifetime on the water

This is the first sailing book that follows a sailor's ideal learning curve. Rather than tell you all about sail trim or anchoring in a single chapter, Robby Robinson tells you what you need to know when you want to know it. From the absolute basics to the most advanced techniques, the *International Marine Book of Sailing* is highly accessible--and informative--at every level.

- More than 500 pages and 1,000 color photos and illustrations.
- Covers everything from high-performance and Olympic-class sailing dinghies to coastal and offshore cruising sailboats. No matter your age or the kind of sailing you'd most like to do, this book will work for you.
- The easy-flowing instructional text is augmented by sidebar features giving alternative approaches, definitions of terms, and boat-to-boat variations--a uniquely effective how-to combination.
- Includes contributions from Nigel Calder (*Boatowner's Mechanical and Electrical Manual*), Beth Leonard (*The Voyager's Handbook*), Robert Perry (*Yacht Design According to Perry*), Bob Sweet (*The Weekend Navigator*), Charlie Wing (*How Boat Things Work*), and other top sailing writers.
- Renders sailing and seamanship more transparent and accessible than ever before.
- The ideal book for self-teaching.

Robert Jackson:

People live in this new moment of lifestyle always try to and must have the time or they will get lots of stress from both daily life and work. So , if we ask do people have spare time, we will say absolutely yes. People is human not a robot. Then we consult again, what kind of activity do you possess when the spare time coming to anyone of course your answer will probably unlimited right. Then ever try this one, reading guides. It can be your alternative with spending your spare time, the particular book you have read is usually The International Marine Book of Sailing.

Robert Hill:

As a scholar exactly feel bored to be able to reading. If their teacher questioned them to go to the library or make summary for some e-book, they are complained. Just tiny students that has reading's heart and soul or real their hobby. They just do what the trainer want, like asked to the library. They go to right now there but nothing reading significantly. Any students feel that reading through is not important, boring and also can't see colorful images on there. Yeah, it is being complicated. Book is very important for yourself. As we know that on this age, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. So , this The International Marine Book of Sailing can make you really feel more interested to read.
