## Trans-National Issues, Local Concerns and Meanings of Post-Socialism: Insights from Russia, Central Eastern Europe, and Beyond

This volume examines societal change in the countries of Central and Eastern Europe (C.E.E.) and Russia in a purposeful movement away from the generalized debated associated with 'transition' theory and a simultaneous engagement with the complexities of everyday life throughout the region at the local level. In addition to addressing the problematic nature of a discursive east-west divide, Trans-National Issues, Local Concerns and Meanings of Post-Socialism brings together a range of academics and practitioners working on specific locally-situated concerns including drug use, H.I.V./A.I.D.S., health, identity, and welfare as well as issues related to minority ethnic groups. While drawing attention to the salience of a common socialist past, these empirically-rich chapters highlight the importance of moving beyond simplistic east-west analytical framework in order to acknowledge the multifaceted societal realities evident with the former socialist countries of C.E.E. and Russia.
