American snipers have gained increased popularity after the production of the movie American Sniper based on the life of Chris Kyle who served as a sharp shooter in Iraq consecutively for about four periods. Sharp shooter is the less common term to describe snipers whose role in history started in the World War. Famous snipers have since emerged forming part of the elite Navy Seals. While some people refer to snipers as cowards because they do seem to not be actively engaged in combat they have been hailed as heroes due to the reduced misses during combat and the flexibility of their attack to rely on stealth. American snipers have played a huge role in eliminating some of the terrorists bent on causing terror around the world. Snipers are originally meant to increase the chances of winning a war. They do this by neutralizing the most dangerous people in war from a concealed distance and thereby serve to provide an advantage to their side.
