Managing with Scarce Resources: New Directions for Institutional Research (J-B IR Single Issue Institutional Research)

This volume addresses the topic of managing with scarce resources. Contributions have been designed to assist those who direct institutional research, those engaged in planning the use of resources, and faculty leaders and higher education administrators both on campus and in broader higher education roles. Institutional researchers and strategic planners can survey the areas in which research is needed and consider how they can facilitate decision making by supplying information and analysis and indentifying options. Faculty leaders and administrators can benefit from the discussion of options that best further the basic objectives to be served in a period in which resources for higher education are particularly scarce.
