Robert Perry

Signs: A New Approach to Coincidence, Synchronicity, Guidance, Life Purpose, and God's Plan presents a new way of approaching coincidental or synchronistic events, events that seem to be telling us something. It explains how to separate out more ordinary synchronicities from what the author calls "signs" or CMPEs (Conjunctions of Meaningfully Parallel Events), a kind of super-synchronicity. These occurrences are so intelligently organized as to go far beyond chance and convey a remarkable depth of wisdom and insight for our lives. Filled with dozens of real-life examples, the book is both a how-to guide for working with this phenomenon and an exploration of the phenomenon itself, including what it implies about the nature of reality and the existence of God.
