Mirage: The Love Language of Islam! Wake Up America...Before It's Too Late David Ibrahim

The author has documented the facts and events concerning the origin, spread, and rise of Islam. He has shared the concerns of his heart. It is his hope that the American people will not lose the battle of confronting Islam, which is now being waged on their own home ground; that they return to the values of their Judeo-Christian heritage, upon which this great nation was founded; and that they recognize "the love language of Islam," which is now being woven throughout inter-faith dialogue, is simply a mirage! The message of the book will awaken Americans regarding the hidden agenda of Islam; show how Muslims are progressively strengthening their presence by means of "silent jihad"; and substantiate that the goal of Islam, which is to change the West (especially the USA) from the "House of War" (term for non-Islamic nations) into the "House of Peace" (Islamic nations and societies), is already in progress. The book walks you through a crystal clear picture of how Islam is using deception in portraying itself as a peaceful and loving religion. Islam's definition and perception of peace and love are totally different from that of the free world! These pages uncover and lay bare the teachings and practices of Islam so that you might see and examine them for yourself. It is hoped that you will then be able to recognize and counter the mirage of Islam. The author, nevertheless, leaves the decision to act in the hand of each reader. It is, however, his earnest prayer that Americans will stand firmly on GOD'S WORD in this battle against the principalities and powers of darkness! May you understand that this is a spiritual war! Now, more than ever, you must reach your family, friends, neighbors, and Muslims as well, by presenting to them the glorious person of JESUS CHRIST! This book was born at the writer's life experiences as a Christian living in a Muslim country. He came to the United States as a result of religious persecution.
